SUMMARY

I am a dedicated and skilled Shopify developer with over 2 years of experience specializing in designing, developing, and optimizing ecommerce websites and platforms. With a strong foundation in **HTML**, **CSS**, and modern frameworks like **Tailwind CSS**, I create seamless, responsive, and visually appealing digital experiences tailored to meet unique business needs. My focus is on delivering solutions that drive business growth and provide an exceptional user experience.

EXPERIENCE

Front End Developer at Iplex   Jun '22 — March '23 Islamabad, Pakistan

- Creating user-friendly webpages using **HTML**, **CSS**, **JavaScript**, **Tailwind** and **Bootstrap**.
- Communicating with clients to determine their wants and needs.
- Designed and coded modern, responsive websites optimized for desktop, tablet, and mobile using the latest HTML, CSS, and JavaScript/jQuery.
- Transformed wireframes into detailed designs using Figma and Photoshop, then converted them into pixel-perfect HTML code.
- Created pixel-perfect HTML pages from Sketch using Bootstrap.

Front End/Shopify Developer/Hubspot Developer   March '23 — Present **NODE Agency** Rawalpindi, Pakistan

- Worked on multiple CSS/HTML/Shopify/Hubspot projects.
- Scalable design using utility-first CSS frameworks.
- Worked on multiple Shopify projects as a Shopify Developer.
- Shopify theme and custom plugin development.
- Worked on multiple Hubspot projects as a Hubspot Developer.
- Responsive web design.
